

# WMUA Earns Two 2026 AEA WAVE Awards

## Forward Thinking – H2Opportunity Pre- Apprenticeship Program

### Public Education – Community Engagement Campaign

The Willingboro Municipal Utilities Authority (WMUA) is proud to announce that it has received two prestigious WAVE Awards from the Association of Environmental Authorities (AEA) at the organization’s 2026 Annual Meeting and Conference. *The Forward Thinking Award for the H2Opportunity Pre-Apprenticeship Program, the nation’s first ever High School program introducing the Water and Wastewater industry to future generations and*

*the Public Education Award for our Community Engagement Campaign, increasing awareness of the importance of water and wastewater services to public health.* These

Patricia Lindsay-Harvey accepting on behalf of the  
WMUA at the Annual Meeting and Conference.

honors bring WMUA’s total number of WAVE Awards to five, reflecting the Authority’s continued commitment to innovation, transparency, and community service in the

delivery of water and wastewater services to Willingboro residents.

The AEA WAVE Awards are presented annually to recognize member authorities throughout New Jersey that demonstrate excellence across a range of program areas. Being selected is a testament to an authority’s leadership, ingenuity, and dedication to public service.

The WMUA’s WAVE Awards are proudly displayed at the Authority’s office, located at *433 John F. Kennedy Way, Willingboro, NJ*. Residents are encouraged to stop in and celebrate these achievements with us. We are honored by this recognition and remain steadfast in our mission to deliver exceptional water and wastewater services while making a lasting positive impact on the Willingboro community.
